EXAMINER'S AMENDMENT

Election/Restrictions

Newly submitted claims directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The patentable features of the lead and delivery device and not just the clamp render the claims allowable. The clamp with simply a statement of intended use would entail a brand new search.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 25-30 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Carol Barry on 1-8-2007.

Claims 25-30 are cancelled.
